Galaxy S6 & S3 constantly disconnects from AT&T Modem - [Solved]
2019/12/25

For the last several months, my Galaxy S3 has been constantly disconnecting itself from my AT&T modem's wifi, at very heavily varying intervals (Between 5 mins and 12 hours). When this happens, the only way to get it to reconnect is to turn my phone's wifi off, then on again. Fast forward to today, when I just got a Galaxy S6. It does the same thing, but now within a 1-5 min interval, and it says under my modem on the phone, "Authentication Error Occurred," and it is fixed in the same way. Anything hardwired to the modem doesn't have any disconnecting issues, and my father's laptop doesn't have any problems with the wifi. My exact modem model is BGW210-700.
